CONTENTS

Special Issue on Design Combinatorics:

In honor of S.S. Shrikhande

Edited by V.D. Tonchev, S. Hedayat, N. Singhi and K.D. Vijayan

Volume 95, Numbers 1–2

Preface 1

Editorial 3

Mutually orthogonal latin squares: a brief survey of constructions
C.J. Colbourn and J.H. Dinitz 9

Resolvable balanced incomplete block designs with block size 5
R.J.R. Abel, G. Ge, M. Greig and L. Zhu 49

A nonexistence result on difference sets, partial difference sets and divisible difference sets *K.T. Arasu and S.L. Ma* 67

Singer line orbits in PG(3,q) *R.D. Baker and G.L. Ebert* 75

Large sets of disjoint pure Mendelsohn triple systems
F.E. Bennett, Q. Kang, J. Lei and H. Zhang 89

An infinite family of quasi-symmetric designs
A. Blokhuis and W.H. Haemers 117

Super-simple designs with $v \leqslant 32$ *I. Bluskov and K. Heinrich* 121

On the number of mutually disjoint cyclic designs and large sets of designs
I. Bluskov and S.S. Magliveras 133

$V(m,t)$ and its variants *K. Chen, G.H.J. van Rees and L. Zhu* 143

Minimum weights of point codes of Steiner triple systems *C.J. Colbourn* 161

Recursive constructions of complete caps
A.A. Davydov and P.P.J. Östergård 167

Face-regular bifaced polyhedra *M. Deza and V. Grishukhin* 175

Contributions to the problem of Zarankiewicz
A.P. Godbole and H.C. Graziano 197

On classification of two class partially balanced designs
Y.J. Ionin and M.S. Shrikhande 209

Ternary dual codes of the planes of order nine
J.D. Key and M.J. de Resmini 229

Ternary trades and their codes
G.B. Khosrovshahi, R. Naserasr and B. Tayfeh-Rezaie 237

(*contents continued*)

Cyclically resolvable cyclic Steiner 2-systems $S(2,4,52)$
C. Lam, Y. Miao and M. Mishima 245

Constructions for a certain type of balanced bipartite block designs
M. Mishima, M. Jimbo and S. Kageyama 257

Types of factor in experiments *D.A. Preece* 269

Construction of some repeated measurements designs
T.K. Dutta and B.K. Roy 283

Extremal case of Frankl-Ray-Chaudhuri-Wilson Inequality
J. Qian and D.K. Ray-Chaudhuri 293

Definitions for spherical designs *J.J. Seidel* 307

The geometric description of a cyclic $(q-\sqrt{q}+1)$-arc in $PG(q-\sqrt{q}-3,q)$, q square *L. Storme and S.K.J. Vereecke* 315

Symmetric 2-(69,17,4) designs with automorphisms of order 13
S. Topalova 335

Recursive constructions for 3-designs and resolvable 3-designs 341

Author Index Volume 95 359
